

Q1. check positive number?

⇒ Flowchart :-

O/p :- number is positive.

15 Wednesday

Java code :-

```
public class positiveNum {  
    public static void main (String[] args) {
```

```
        int num = 10;
```

```
        if (num > 0) {
```

```
            System.out.println("number is  
positive");
```

```
        } else {
```

```
            System.out.println("number is  
negative");
```

```
        }
```

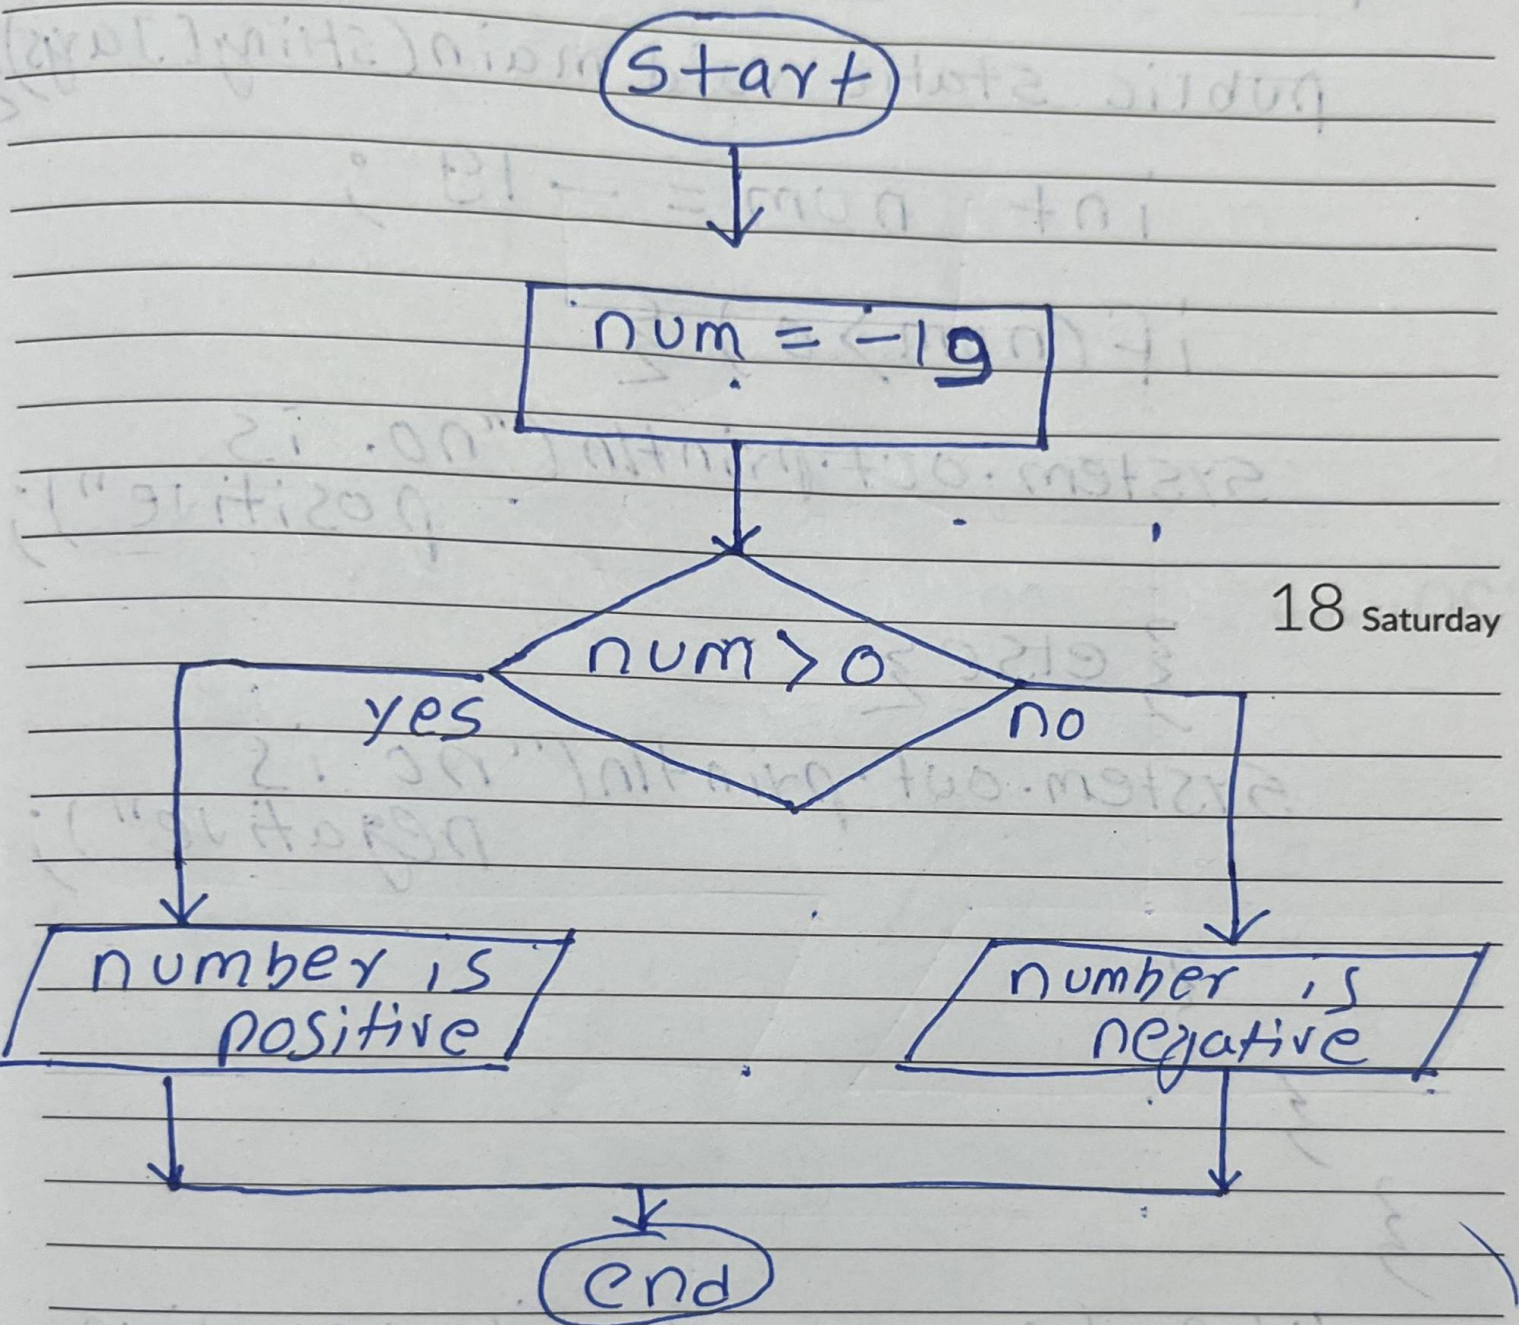

```
    }
```

```
}
```

Output :- number is positive.

Q2. Check negative number?

=> Flowchart :-

Output :- number is negative

Java code:-

```
public class negative num {  
    public static void main(String[] args) {  
        int num = -19 ;
```

```
        if (num > 0) {
```

```
            System.out.println("no. is  
                                positive");
```

20 Monday

```
        } else {
```

```
            System.out.println("no is  
                                negative");
```

```
        }
```

```
    }
```

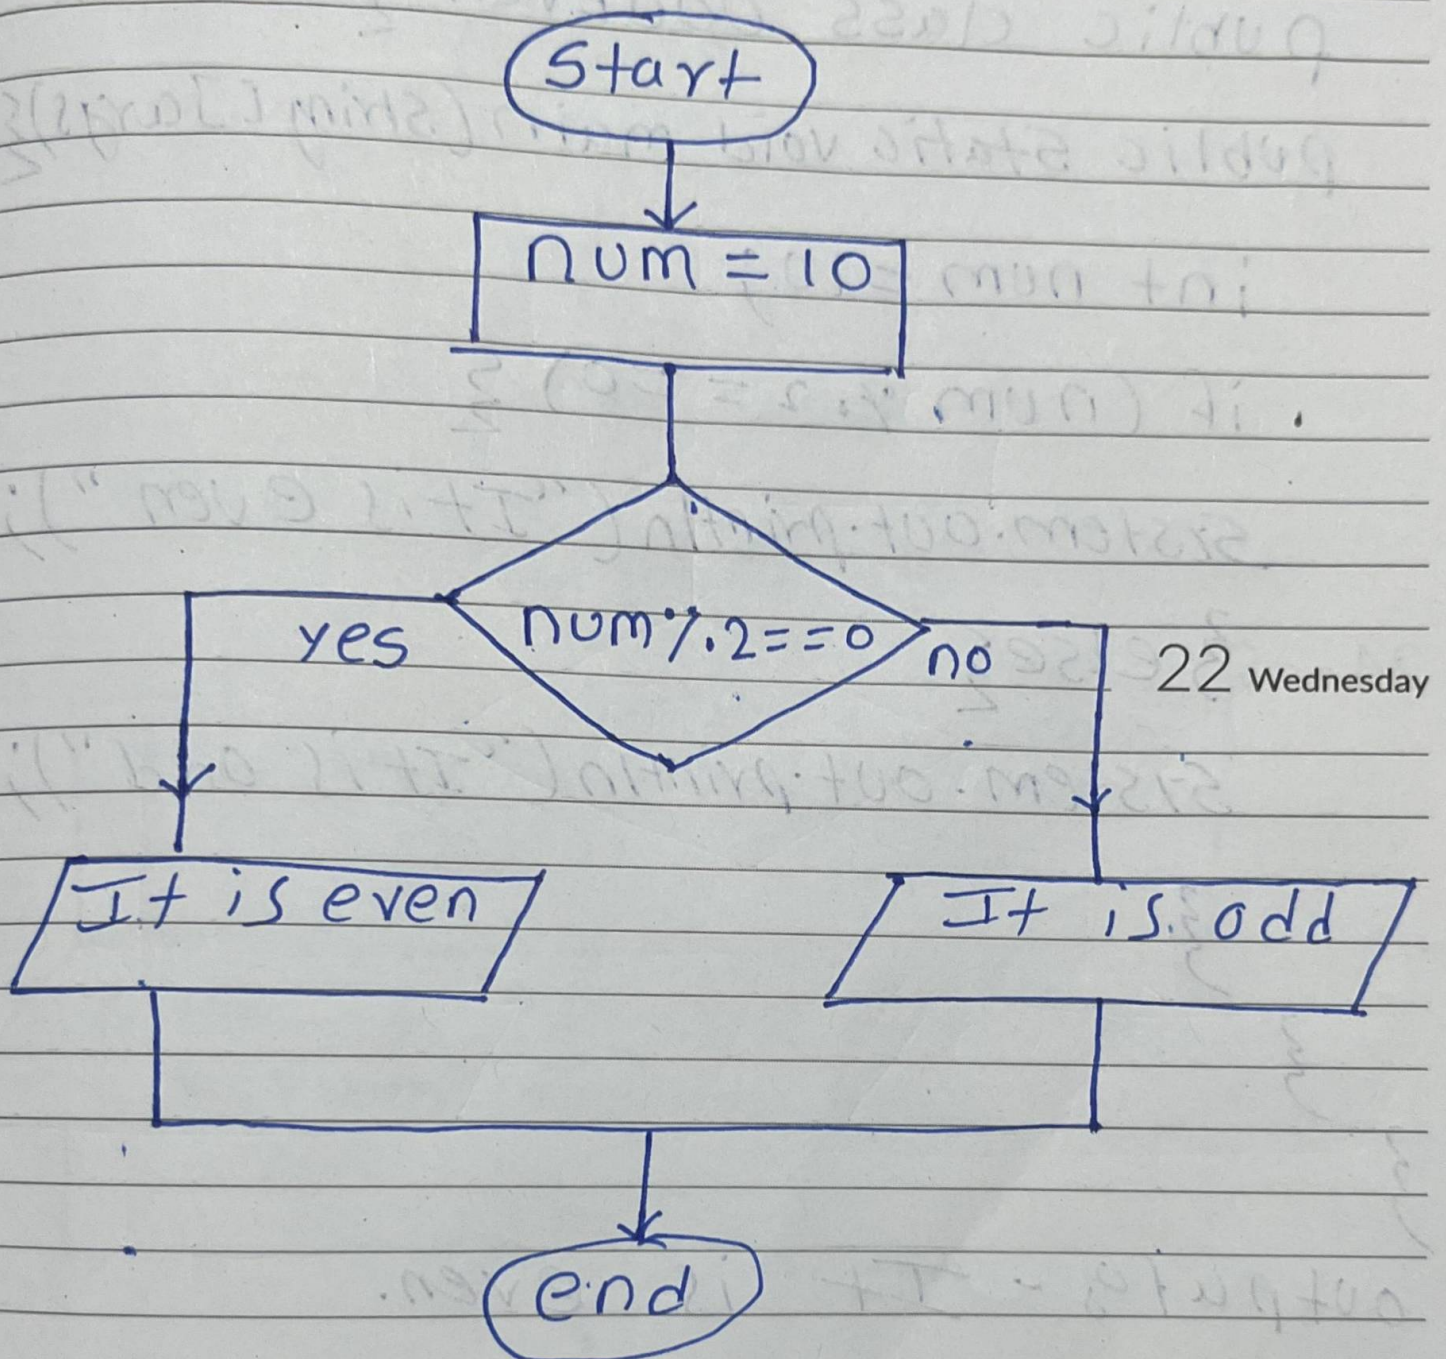

```
}
```

output:- number is negative.

JANUARY 2025

Q3. check odd or even number? 21 Tuesday

⇒ Flowchart :-

22 Wednesday

output :- It is even.

Java code :-

```
public class OddEven {
```

```
    public static void main(String[] args) {
```

```
        int num = 10;
```

```
        if (num % 2 == 0) {
```

```
            System.out.println("It is even");
```

```
        } else {
```

```
            System.out.println("It is odd");
```

```
        }
```

```
    }
```

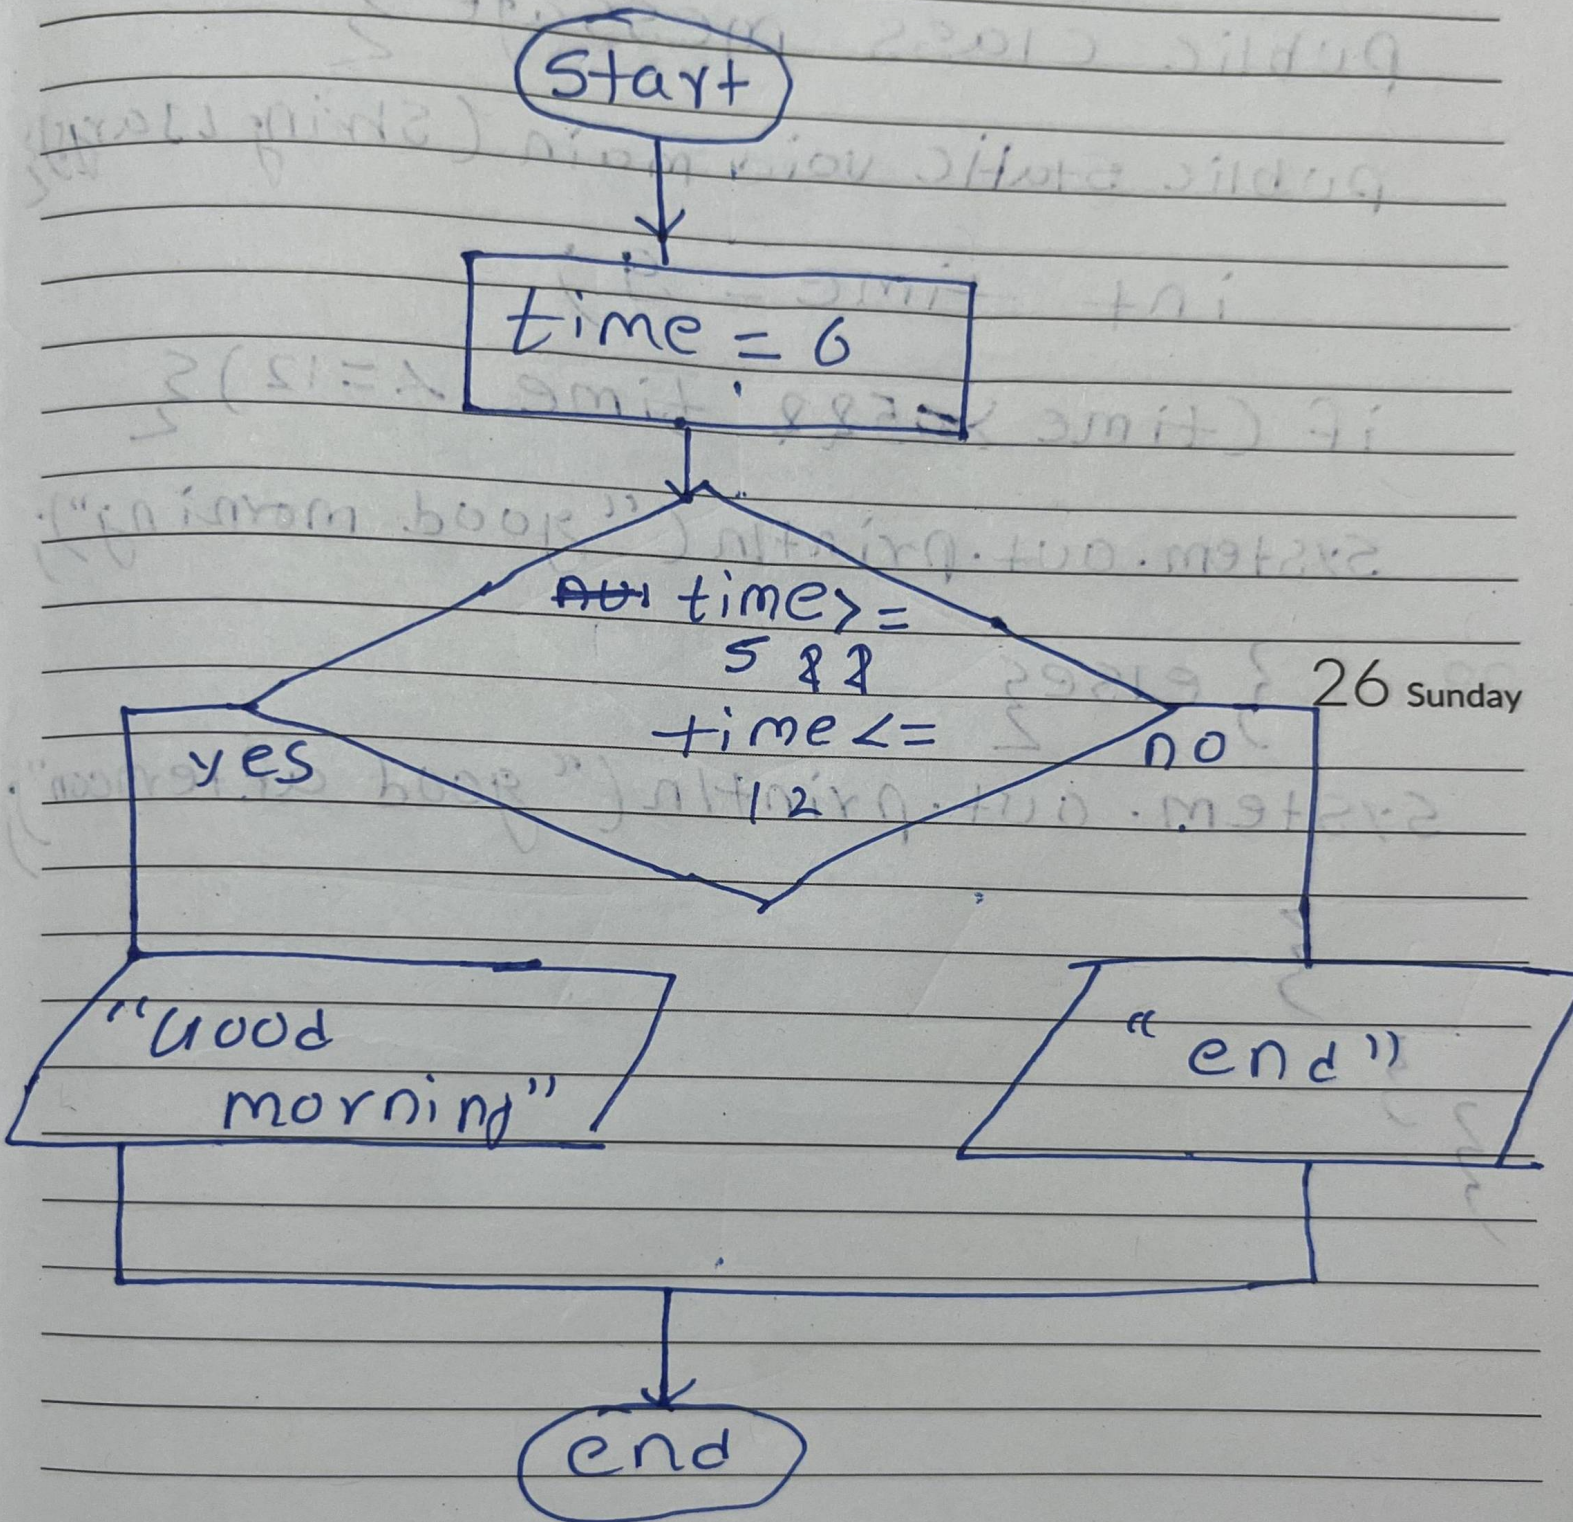

```
}
```

output :- It is even.

JANUARY 2025

Q4. Display good morning message based on time :- 25 Saturday

=> Flowchart :-

26 Sunday

27 Monday

Java code :-

```
public class message {
```

```
    public static void main (String args[])
```

```
    {
        int time = 9;
```

```
        if (time > 5 && time <= 12) {
```

```
            System.out.println("good morning");
```

28 Tuesday

```
        } else {
```

```
            System.out.println("good afternoon");
```

```
        }
```

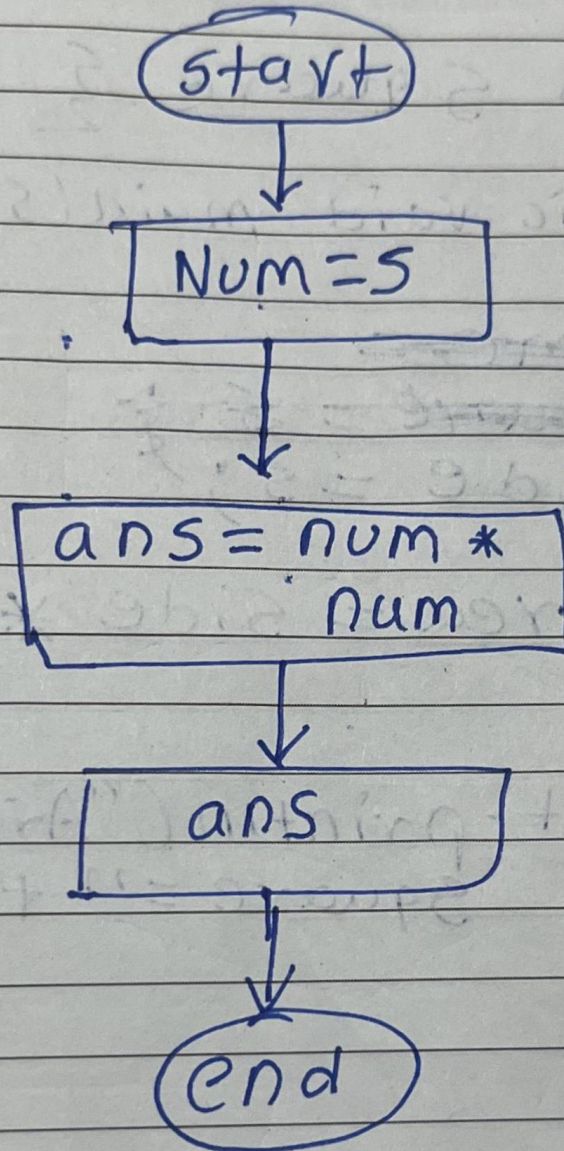

```
    }
```

JANUARY 2025

29 Wednesday

Q5. print Area of Square?

⇒

30 Thursday

JANUARY/FEBRUARY 2025

31 Friday

Java code :-

```
public class Square {
```

```
    public static void main(String[] args)
```

```
    int side;
```

```
    int square = 5;
```

```
    int side = 5;
```

```
    int area = side * side;
```

01 Saturday

```
        System.out.println("Area of  
        Square = " + area);
```

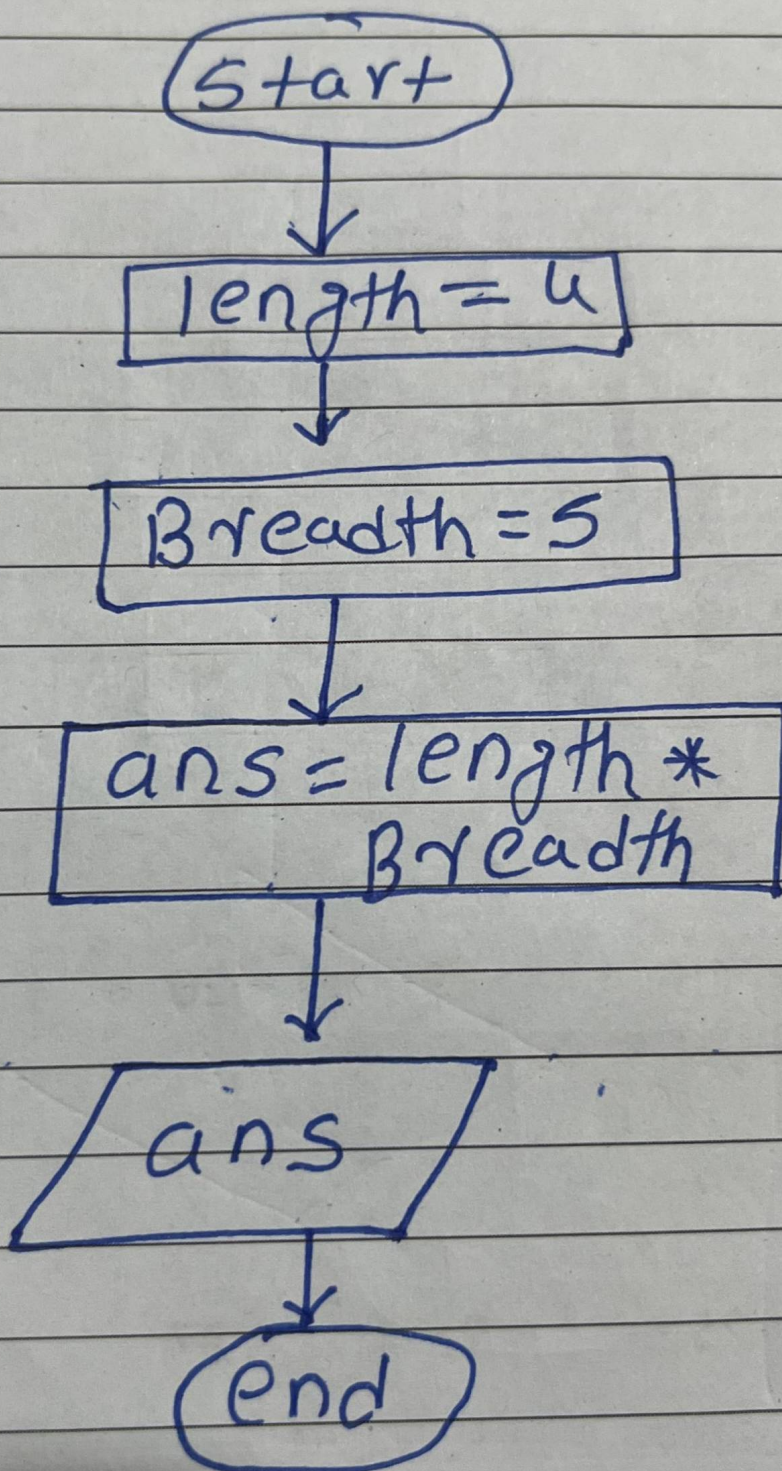

```
    }
```

```
}
```

02 Sunday

Q6. Print Area of Rectangle?

=>

3 Monday

FEBRUARY 2025

SUDHIR GADGE
Insurance Advisor
Code No. 991291297
Mo. 7368132881

Java Code :-

04 Tuesday

```
public class main {  
    public static void main (String [] args) {
```

```
        int length = 4;
```

```
        int breadth = 5;
```

```
        int area = length * breadth;
```

```
        System.out.println(area);
```

```
    }
```

```
}
```

05 Wednesday

O/p :- 20

06 Thursday

Q7. Find largest of three nos -

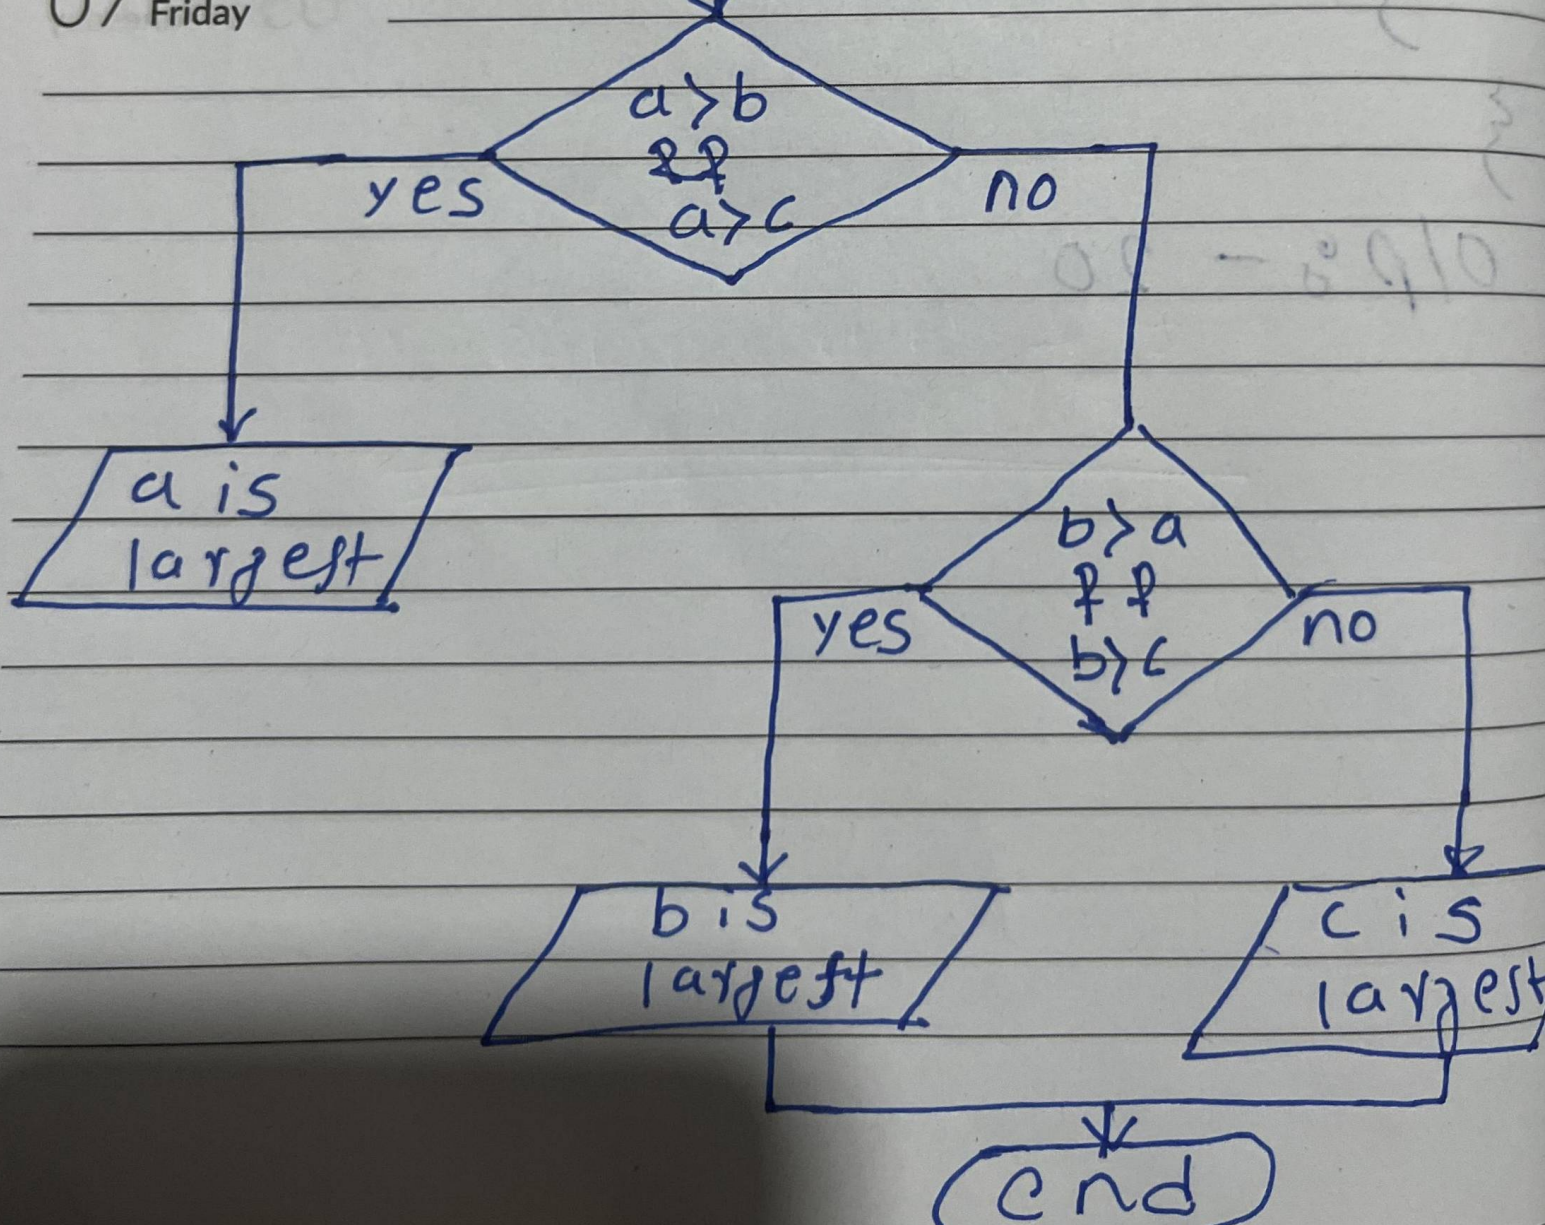

=> **Start**

Input a

Input b

Input c

07 Friday

FEBRUARY 2025

Java code :-

08 Saturday

```
public class main {
```

```
    public static void main (String [] args) {
```

```
        int a = 10;
```

```
        int b = 25;
```

```
        int c = 15;
```

```
        if (a > b & & a > c) {
```

```
            System.out.println("largest" + a);
```

09 Sunday

```
        } else if (b > a & & b > c) {
```

```
            System.out.println("largest" + b);
```

```
        } else {
```

```
            System.out.println("largest" + c);
```

```
        }
```

```
    }
```

```
} o/p :- largest 25
```
